About Us

Seaward Safety has over 20 years' experience of manufacturing and supplying Photoluminescent Low Location Lighting, Pipe Markings, Anti-slip Products, Safety Signage, and Platform ID Plates to the Marine and Offshore Industry.

With offices spanning four continents; Europe, North America, South America and Asia, Seaward Safety are well placed to meet our client's needs, from simple supply to complete turnkey service.

Our services start from initial Desktop or Physical survey to in house manufacture and final Installation.

All Seaward Safety signage solutions have a proven track record on facilities located in the harshest of environments around the world.

Our industry leading services and product range is unmatched by any of our competitors.

As market leader, our portfolio of blue chip clients continues to grow and includes all the major Oil and Gas companies on a global scale.

Services

Whether it's our industry leading, comprehensive Turn-Key Solution or one of our individual services, Seaward Safety's expertise will ensure that our clients feel confident in our safe, experienced hands.

Turn-Key Solution
Seaward Safety's comprehensive turn-key service offers a complete end-to-end project solution for each of our clients, incorporating all of the services mentioned below.

Surveys

Offering both physical onsite surveys and desktop surveys, our experienced Surveyors will have a solution to suit each of our client's needs.

Design

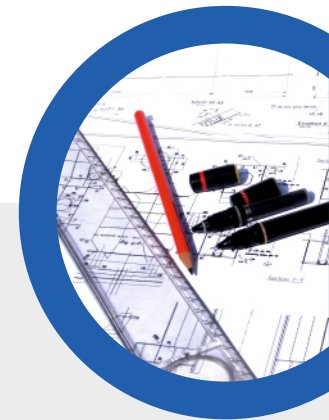

Seaward Safety's experienced in-house Graphic Design Team design products tailored to the unique requirements of our clients.

Installation

Our professional, globally experienced Installation Technicians are experts at installing all of Seaward Safety's products.

Testing

As part of our Testing Service, Seaward Safety engineers will test the luminance of your low location lighting system by taking readings on site.

Decommissioning Boards

Our bright, visually impacting boards will ensure that your personnel are vigilant towards, and aware of any risks posed by the decommissioning process.

COMMENTS:

Example T-Cards

Decommissioning Self Adhesive Rolls

Seaward Safety's Self Adhesive Decommissioned Rolls are used to clearly identify any decommissioned pipes, areas and equipment/machinery.

Simply cut the self adhesive roll to the required length, remove backing and apply to any clean surface, or to itself if used as a wrap around marker e.g. around pipes and ducting.

Decommissioning Signs

We can tailor our signs to suit your individual requirements. This can include material choice, fixing methods, colours, dual/multiple language, size, etc.
